

Technical Service Support

INDUSTRONIC ENGINEERING & SUPPLIES

Industronic is an industrial manufacturing and supply company, operating from Vanderbijlpark, South Africa since February 2000.

We offer a variety of products and services to our domestic as well as international industrial market.

Our mission is to supply quality products at competitive prices to our customers and to provide a satisfactory service.

Regular service ensures cost-effective and efficient operations by reducing equipment downtime throughout the equipment life. Properly maintaining your equipment is essential to minimize total cost and your financial risk increases significantly with the lack off maintenance.

Other services include:

- Planning and design of new electrical and electronic products according to the specifications of the customer
- Service and maintenance (electrical and electronic)
- NDT equipment related service:
 - Service and repair of most UT equipment
 - Service and repair of MPI equipment
 - Service and repair of most radiography equipment
 - Re-gas of X-Ray tubes
 - Remove and replace odd size quick coupling connectors on X-Ray tubes, with local parts
 - Service and repair of film viewers as well as conversion to LED technology (Conversion subject to prior assessment)
 - Service and repair of manual film dryers
 - Service and repair of automatic film processors
- Onsite services offered on prior agreement
- Technical Service Agreements available with following benefits:
 - Service priority
 - Preferred rates
 - Guaranteed response times
